

REQUEST AND RECOMMENDATION

ONE YEAR OPTION 900+ Clock Hour Programs - Barbering

Background:

To provide another option for adult students to apply prior learning toward a degree, Ohio legislators established what has come to be known as the One-Year-Option through Section 363.120 House Bill 59 of the 130th General Assembly. The Chancellor of the Ohio Department of Higher Education, in consultation with the Superintendent of Public Instruction and the Governor's Office of Workforce Transformation, was tasked to establish a One-Year Option credit articulation system in which graduates of Ohio's adult career-technical institutions who complete a 900-hour program of study AND obtain an industry-recognized credential approved by the Chancellor will be able to receive 30 technical semester credit hours toward a technical degree upon enrollment in a public institution of higher education. The Chancellor was also to recommend a process to award proportional semester credit hours for adult career-technical institution students who complete a program of study between 600 and 899 hours AND obtain an industry-recognized credential approved by the Chancellor. The Chancellor convened a broad group of stakeholders to develop a system of articulation for the One Year Option that was presented in a report to the legislature called, *"Getting to 30: Establishing a One Year Option Credit Articulation System for Ohio."*

In order to implement the system of articulation developed with the stakeholders as well as address accreditation requirements for degree granting institutions, the Chancellor convened Credit Affirmation Teams (CATs) to conduct a peer review of programs and certifications for affirmation for a block of 30 semester hours of technical credit. The CATs were comprised of faculty and administrators from Ohio Technical Centers (OTCs) and an equal number from public degree granting colleges and universities in Ohio. The CATs were organized by four discipline clusters: Health and Allied Health, Building and Industrial Technology, Business and Information Technology, and Services. They were charged with reviewing the certifications and, if necessary, program content, to affirm that students completing the selected program at an Ohio Technical Center and earned approved certifications had demonstrated competencies equivalent to 30 semester hours of technical credit. This technical credit would then be granted, as a block, upon enrollment in a degree granting institution. Additional subject matter experts were consulted when core team members did not have sufficient content knowledge of the program being reviewed.

Recommendation

As detailed in the attached template, the Services Technology Credit Affirmation Team recommends that students will be eligible for a block of 30 semester hours of technical credit towards an *Associate of Technical Studies in Services Technology* when:

- the student has successfully completed a 900+ clock hour program in Barbering at an Ohio Technical Center.

And currently holds the following credential:

- State of Ohio Barbering License

Please note this license must be current, valid, and in good standing.

One-Year Option
Certification Affirmation Template

The Program Affirmation Template is designed to provide a common review matrix for each of the cluster areas in the analysis to award 30 semester hours of technical credit for Ohio Technical Center graduates who are eligible for the One Year Option. The template should be completed for every program/subject and signed by the co-chairs of each of the four cluster program areas for every Industry-recognized credential/program reviewed.

Please note: All Ohio Technical Centers must be accredited by one of the following: [Council on Occupational Education \(COE\)](#) and/or [Accrediting Commission of Career Schools and Colleges \(ACCSC\)](#).

	<ol style="list-style-type: none"> l. Barber implements. <p>(3) At least twelve hundred hours of general barber practice on the following subjects:</p> <ol style="list-style-type: none"> a. Facial treatments; b. Scalp treatments; c. Shampoo treatments; d. Tinting; e. Bleaching; f. Facial shaving; g. Haircutting I (tapers); h. Haircutting II (style/trend cuts); i. Haircutting III (styling); j. Hair straightening and relaxing; k. Permanent waving; l. Shop duties; m. Shop management; and n. Hair pieces. 	
Rationale	<p>The Services Credit Affirmation Team utilized numerous resources to complete the assessment. The resources included the Ohio State Barber Board, and team of faculty representing Ohio Institutions of Higher Education, both two-year and four-year schools and Ohio Technical Centers.</p> <p>The only applicable credential reviewed was the State of Ohio Barber License. The first step was to research what competencies were tested by the Barber license. The team reviewed information about the license to determine what competencies signaled by earning the credential. Also considered were programmatic guidelines for necessary accreditors and regulators.</p> <p>The team agreed that a student who is awarded a State of Ohio Barber license and completes a 900 or more hour program at an Ohio Technical Center qualifies for thirty technical credits at a public degree-granting college or university in Ohio. A student can only sit for a State of Ohio Barber's license exam if he or she has completed a program approved by the Ohio State Barber Board.</p>	

ONLY IF NECESSARY TO AFFIRM 30 CREDITS----STEP TWO: PROGRAM-RELATED COMPETENCIES OBTAINED OUTSIDE OF CREDENTIAL
